Work Experience

MS GRID TRANSMISSION LINES CO-OP STUDENT | ENTERGY MS LLC | JAN 2023-DEC 2023

- Used PLS CADD for structure change outs, to correct phasing, follow vertical clearance requirements, check terrain, etc.
- Collected information for planned projects by making staking sheets with proposed structure types, backfill used, pole height, class, and additional comments if needed.
- Coding in excel to create a master material spreadsheet that would correctly order material based off shield wire size, conductor size, voltage, and framing type.
- Transmission line scoping for various projects to see existing structures' condition and any missing information not documented.
- Obtain railroad, highway, and levee permits per guidelines needed for future projects.
- Maintain the transmission line database by updating project completed dates, adding comments, and as-builts if needed.
- Create flight hazard plans for yearly helicopter patrols by using Google Earth.

DATA ENTRY & CUSTOMER SERVICE OPERATOR | SUPERIOR OPTICAL LABS | AUG 2019- MARCH 2020

- Modify prescription needs and make use of available resources at the time.
- Frequently communicated with lab workers to ensure proper documentation of lenses were used.
- Help with double billed invoices and moving from an old to new billing system.
- Used email primarily to discuss with different VA locations across the Southeast about patients.
